

SOL400 | 400W LED LIGHT

Product Description

Our smallest model, the SOL400, boasts an impressive omni-directional coverage area of 10,000sqft. Both the compact travel hardcase and a weight of just 9lbs makes the SOL400 easy to transport, store, and assemble on site.

The SOL400 provides 360-degree glare-free lighting and zero shadowing, which ensures a well-lit and creates a safer work environment.

With its' smaller light coverage area, the SOL400 is perfect for illuminating smaller work and emergency sites.

Accessories for this product can be found on Page 8.
